

# Altair and Devonshires 2020 Leadership and Strategic Event

## Wales Millennium Centre, Cardiff

### Tuesday 28 January 2020

2020 requires a clearer vision from the sector than ever before as you plan to meet the challenges of decarbonisation, whilst meeting the demand for more homes and expectations from tenants and residents. Our theme this year will focus on sustainability. We will ask 'how can RSLs position themselves to meet the costs of sustainable housing?'. We will explore the financial trade-offs, the culture and leadership required, value for money and tenants and residents engagement.
